Advisory: CRIME ALERT – Recent Residential Burglaries in RD29

Dear James Gula,

- **2000 BLOCK OF SANTIAGO DR (16-9930)**

Occurred on: 11/9/2016 at approximately 2:40 p.m.

Unknown suspect forced open a large elevated window on the side of the victim's home after entering the side yard through an unlocked gate. The suspect fled the property after activating the burglar alarm. Prior to the burglar alarm being activated the individual described below was seen on camera knocking on the victim's front door.

Loss: None at the time of the report

Suspect information: Male Caucasian or light colored Hispanic, 5'7" to 5'11", 225 lbs. wearing a dark baseball hat worn facing forward, multi-colored plaid button-down shirt, with a light colored t-shirt underneath. Also wearing long tan shorts that stopped at his calves and dark glasses.

- **1500 BLOCK OF ANTIGUA WAY (16-9681)**

Occurred on: 10/31/2016 between 7:40 a.m. and 2:15 p.m.

Unknown suspect entered the victim's property through an unlocked front gate and then walked around to the backyard. The suspect then smashed a pane in a full-length window next to a set of French doors, reached in and unlocked the window, and walked inside. The suspect rummaged through drawers in several bedrooms before fleeing out the front door.

Loss: None at the time of the report

Suspect information: None seen or heard

****If you see suspicious activity within your neighborhood at a home where you know your neighbors are on vacation, have gone out for the evening, or their home is for sale, please call the Newport Beach Police Department immediately at 949-644-3717****

Home Security Tips

- Always lock your windows and doors when you go out, even if for only a few minutes.
- If you return home and find your pedestrian door that leads into your home locked, and you are certain that you left it unlocked, **DO NOT GO INSIDE!**
- **Call 9-1-1** ~ *Burglars often lock this door to slow down a victim, allowing the burglar extra time to get out of the home before the resident enters.*
- **If your home is equipped with an alarm, always activate it even if you're only going out for a short walk.**
 - **Consider adding a motion sensor in your master bedroom/bathroom, which will activate the alarm if someone comes in through a glass window or door without opening it.**
- Always keep your front and rear porch lights on from dusk to dawn and use motion detector lighting along the sides of your home or areas with little foot traffic.
- Use timers on indoor lamps to give the appearance that you are home.
- Adjust window coverings for optimal privacy while maintaining good visibility outside.
- If your garage door has a remote shutoff button on the wall-mounted control, located in the garage, consider locking the door nightly. This will prevent your garage door from being opened remotely.
- If you have a safe, make sure that it is properly bolted to concrete so that it cannot be easily removed.
- *Always close and lock your safe and never leave a key or combination out or in an easy to find location (i.e. office, nightstand, etc).*
- When you leave on vacation, remember to call the Police Department for a **"Vacation Check" 949-644-3681** or sign-up online at www.nbpd.org. Also, ask a trusted friend or neighbor to pick up your newspaper and mail while you are away.

BERKELEY

Resilience Strategy

A plan to advance preparedness and equity in Berkeley, a community known for inclusiveness and innovation

Table of Contents

Introduction and Purpose	7
Developing the Strategy	11
Berkeley's Resilience Goals	19
 Goal 1: Build a Connected and Prepared Community	20
 Goal 2: Accelerate Access to Reliable and Clean Energy	26
 Goal 3: Adapt to the Changing Climate	32
 Goal 4: Advance Racial Equity	36
 Goal 5: Excel at Working Together within City Government to Better Serve the Community	40
 Goal 6: Build Regional Resilience	44
Appendix: Summary of Goals and Actions	48
Acknowledgements	54

Goal 1

Build a Connected and Prepared Community

Berkeley is a truly unique community. Its world class academic institutions, well-earned reputation for tolerance and inclusiveness, vibrant local economy, and access to the broader San Francisco Bay Area draw residents and visitors from all over the world. But every aspect of the city, including its people, historic places, and economic prosperity, could be quickly and dramatically altered by a catastrophic disaster, such as an earthquake or wildfire. Although we cannot predict when the next disaster will strike, as a community we are empowered to take steps now to reduce the harm disasters can cause.

Fundamental to preparedness is connectedness. The City of Berkeley government (City) and its community partners have worked for many years to provide incentives and support that advance critical connections among neighbors; between public, private, non-profit, and academic institutions; and between Bay Area local and regional governments. These connections enable everyone in the Berkeley community to take part in a coordinated response and recovery effort. Importantly, these connections also help to ensure that Berkeley's most vulnerable residents have vital lifelines before, during, and after a disaster.

Through the dedication and relentless focus on disaster readiness that many in our community provide, Berkeley is safer and more prepared now than ever before. But our work is not done. The actions identified below are designed to build on existing efforts and to result not only in improved physical safety, but also a more tightly-knit community.

Resilience value

The actions identified to build a connected and prepared community are designed to result in multiple benefits, including improved physical safety, which will result in reduced loss of life and injury in the event of a disaster; increased social cohesion; increased access to services and assistance for historically underserved residents; improved environmental performance of critical City facilities; and improved ability to minimize economic disruption.

What you can do

Actions you can take to help build a connected and prepared community include:

- **Get to know your neighbors, especially those that may need extra assistance in the event of a disaster. Organize a block party and invite Berkeley Ready staff to provide information on critical steps you and your family can take to prepare for emergencies. Visit <http://cityofberkeley.info/OES> to learn more.**
- **Get trained. Invite your friends and neighbors to join you in taking a Community Emergency Response Training (CERT) class. Visit <http://cityofberkeley.info/cert/>.**
- **Take advantage of incentives to get connected and prepared. For example, the City offers free garbage-hauling services for bulky waste by providing a free dumpster for the weekend to neighborhood groups that have worked together to prepare for a disaster. Visit <http://cityofberkeley.info/Dumpster/>.**
- **Learn how to find useful information to keep you and your loved ones safe during an emergency and sign up for alerting systems by visiting <http://cityofberkeley.info/emergencyalerting>.**
